- Connecting hardware, updating firmware, and installing drivers
- Maintained top 5 productivity rank out of over 100 employee's within my first 30 days
- Updating/ Backing up operating systems
- Resolving VPN/ Microsoft issues

Software Development Project(Contract)

Irby Construction

11/2018 - 02/2019

Richland, MS

Helped develop an Asset Tracking System

Achievements/Tasks

- Designed and help develop a functional SQL Database containing all company assets
- Help design and develop a functional web app with multiple search parameters for the data using JavaScript, C#, HTML, and CSS
- Use balsamiq wireframe to design the app
- Adhere to a timeline and due date
- Work with a team to put design into action

Sales/IT Support

Tech Assurance

01/2018 - 11/2018

Ridgeland, MS

Printer based IT sales, repairs, and support

Achievements/Tasks

- Go to guy for networking/settings issues between windows and printers
- Excellence in sales, IT support, customer service, and minor hardware repairs
- Updating/ Backing up operating systems
- Resolving VPN/ Microsoft issues
- Connecting hardware, updating firmware, and installing drivers
- Fixing software issues from Windows 7 to 10 Migrations

Web Development (Personal Learning)

01/2008- Now

Ridgeland, MS

Printer based IT sales, repairs, and support

Achievements/Tasks

- Learned HTML, CSS, and Javascript in high school then applied to personal webpages
- Created simple website for Small/Medium Businesses and other select clientele. Can find examples at (<https://dreamingclean.llc/>), (Twistedpalmssaltyadventures.com) and more!
- Updated/ Backed up operating systems and databases
- Resolved VPN/ Microsoft issues
- Connected hardware, updated firmware, and installed drivers
- Fixed issues with Windows 7 to 10 Migrations
- Learned how to use Wordpress and create secure, encrypted websites using SSL Certification
- I've always been what you would call a "techie" and even in High School I was the tech lab teachers assistant. I'd jailbreak friends iphone's with custom software and fix issues with our school network and websites. At one point a few friends and I found a major vulnerability in the schools systems and assisted in fixing it.
